

- ① You made sure everyone understood what you explained.
- ② Your funny
- ③ You had us act things out (when we got to act out the different ways to say no)

★ - I loved the clock buddies system.
- The ppts were always very colorful, informative, and engaging.
- Your upbeat attitude was very exciting and made me enjoy class every day :P

I like how you made the subjects that you taught about so personal. It made it easier to pay attention to what you were talking about. I like the wheel/minutes system you used. I also enjoy how interactive your class is.

- Mr. Khalouf: He taught lessons well and was the most competent and fun teacher I have had.
- I enjoyed most of the units

me to call it LUMI. The wheel system worked great and kept the class under control. Keep it. The stress relief simulations were fun. Jokes and going outside were great teaching methods.

I liked that you didn't really lecture that much compared to my other teachers and you made us learn a lot. You should keep doing what you always do for teaching.

Dear Mr. Khalouf,

Thank you for teaching me health in such a fascinating way! (Continue to be exciting and fun! ;))

- I really like how you walk around, I hate teachers that stay in one place (It's boring)!
 - I like how you have little stories to share that relate to the topic
 - Your humor keeps me awake, and fascinated.
 - I Love that you're the only teacher that uses the promethean wand! ✕
- Your teach style is really good!

Even more Real life stories! They really help me realize how this all applies to Real life.

- I liked that you always repeated things more than once so we can get a better understanding about it

Mr. Khalouf

he is a good health teacher and helps me realize things I never actually notice and helps me understand things

you aren't boring at all, so it is easy to keep a long attention span.

I love this class because you aren't boring and slow like other teachers. You explain things really good and you have many stories to tell about most things you teach. He makes me want to come and learn.

from the beginning until now u are
the best and good explaining
teacher.

I like how you teach the class. You created a fun
teaching.

I liked when u explained with fun and
telling us a real thing about ur life.
keep that up!!! u are the best

to have free time for good
behavior, I like his style of teaching.
Even though his class was fun, he
still taught us about first aid and the
dangers of drugs and much more.

you are very organized
for a boy teacher that's
good

The following refers to Family Life and Human Sexuality and Disease Prevention:

I don't try to change your way of teaching because
you do a pretty good job of keeping
everything relaxed and not making lessons
boring. Because they kind of seem like
awkward topics but you make them
interesting even though it'll
be awkward anyway.

Tried to make activities that were not
